The NOVOMATIC AG Group

In 1980, a young entrepreneur with a visionary pioneering spirit and the courage to innovate laid the foundation for today's global company: Professor Johann F. Graf. Today, the NOVOMATIC AG Group is one of the biggest producers and operators of Gaming Technologies, with approximately 21,000 staff worldwide, locations in more than 45 countries and exporting high-tech electronic gaming equipment to approximately 90 countries. The Group operates about 214,000 gaming machines in its 1,900 plus traditional and electronic casinos as well as via rental concepts.

Part of the Group is also ADMIRAL Sportwetten GmbH, Austria's leading sports betting operator with around 260 outlets, as well as the Vienna-based online gaming specialist Greentube Internet Entertainment Solutions GmbH. The main markets of the Group are the Member States of the European Union; the Central, Eastern and South Eastern European markets where NOVOMATIC was, due to its early market entry, able to establish an excellent position; as well as expanding markets with exceptional growth such as Latin America and the US.

Gaming innovation starts here

Research and development are important cornerstones of the NOVOMATIC business model. 30 technology centers in 15 countries represent world leadership in the development of innovative technologies, system solutions, and promising products for the land-based, online, mobile, and social gaming segments.

Products, services and solutions for all business segments

- Casino and VLT / SBG products
- AWP / LPM for arcades, bars, bingo parlours
- Sports Betting products and systems
- Casino Management Systems
- Content Delivery Systems (AV)
- Accessories
- Online / mobile / social gaming solutions

NOVOMATIC is also the market leader in Europe in terms of electronic casino operations, operating about 1,900 gaming facilities worldwide. These operations are part of the unique and integrated market strategy as both a manufacturer and an operator. NOVOMATIC uses its own operations in the various markets as a field test environment for new products and solutions prior to market launch.

Operations of all kinds

- Casinos and electronic casinos
- Arcades, bingos, bars / pubs, sports betting outlets
- Online / mobile / social casinos
- VLTs

State-of-the-art production facilities

NOVOMATIC has an excellent reputation for innovative high-tech gaming equipment and content that is characterized by premium quality and reliability. Operators value the fast ROI, low maintenance costs and first-class after-sales service and support. The Group comprises modern production facilities at the Austrian headquarters, the Netherlands, Germany, Poland, Spain and Hungary, as well as in the USA, Australia, amongst others. Top quality management and ISO certification policy are mandatory.

As a manufacturer with a global footprint NOVOMATIC attaches great importance on its corporate sustainability policy. Through an optimized production ecology and resource efficiency, as well as sophisticated environmental management policy, the Group aims to keep the ecological footprint to a minimum.

The server-based system provides operators with a unique tool to create a special entertainment world for the distinctive requirements of their casino: choosing the best from server-based electronic table games and slot gaming solutions.

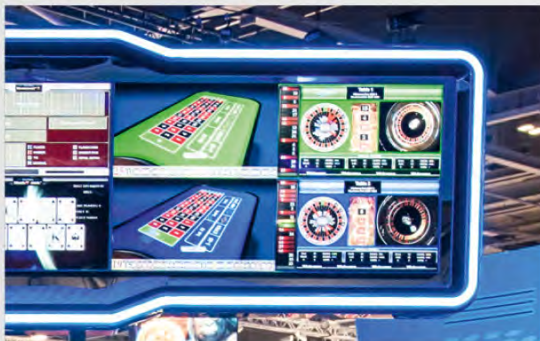

Key Platform Features & Benefits

NOVO LINE Novo Unity™ II offers numerous advantages through its innovative server architecture and integration into the comprehensive NOVO LINE™ system:

- ETG options:
 - **TouchBet®-game version:** live game connection
 - **Multi-game version:** fully automated game
 - **Flying-game version:** completely animated game
- Unique multi-game capabilities – electronic live games and slots available in one system
- Sophisticated animated game layouts and colour style options
- Flexible casino floor management
- Large number of terminal connections
- Future-proof infrastructure
- Online real-time monitoring
- User-friendly configuration and maintenance
- Increased game frequency & security
- Easy touchscreen betting for guests
- Multi-Denomination and multi-language options

ELECTRONIC TABLE GAMES (ETGs)

— Novo TouchBet® Live — **Roulette**

ELECTRONIC **LIVE** ROULETTE

- Connects all terminals to a dealer-operated live Roulette table
- Novo Dealer Board increases game speed and minimizes errors
- Wheel sensors broadcast winning numbers
- Live camera broadcast

— Novo Multi — **Roulette**™

ELECTRONIC **AUTOMATED** ROULETTE

- Connects all terminals to a fully automated Roulette wheel
- No dealer required – no disputes over bets placed
- Fully random wheel operation
- Wheel sensors broadcast winning numbers
- Live camera broadcast

— Novo Flying — **Roulette**™

ELECTRONIC **VIRTUAL** ROULETTE

SIMULTANEOUS BETTING

This addition to the multi-game functionalities for the range of electronic live games based on NOVO LINE Novo Unity™ II delivers a new dimension of game turnaround for players.

Simultaneous betting options allow guests to play up to three electronic live sessions of one game type at the same time: Roulette, Baccarat, Black Jack or Sic Bo. Extra game windows on the betting screen enable the guest to switch at any time between available games and game versions such as TouchBet®, Multi- or Flying versions of a game.

GOING FOR GOLD™

The Roulette jackpot side bet

These jackpot side bet winning chances add some extra thrill to the classic Roulette game! GOING FOR GOLD™ is a multi-level jackpot side bet, set up as a Local- or Wide-Area Progressive offer for all connected Roulette games. Additionally to their classic Roulette bets, players can also choose to buy and place a certain quantity of side bet tokens on the Roulette numbers of their choice, thus participating in the jackpot game. The winning number for the side bet is the same as for the traditional game.

Players can qualify in the initial Jackpot Journey game by buying the tokens and placing them on the layout.

NOVO LINE **NOVO UNITY II**

With each GOING FOR GOLD™-side bet on a winning number they qualify for the next jackpot level: Winning e.g. an IRON jackpot entitles the player to bet on the next jackpot level, BRONZE; winning that allows them to enter the SILVER jackpot game; and a SILVER jackpot grants access to the GOLD jackpot level.

The number of jackpot levels, denomination of the jackpot tokens and individual win values for the jackpot levels can be adjusted according to operator preferences in the menu settings. GOING FOR GOLD™ is available for all Roulette variants of the NOVOMATIC ETG offer based on NOVO LINE NOVO UNITY™ II.

Lucky Lady's™ Roulette

Lucky Lady's™ Roulette

Roulette with an extra touch of Lady Luck

Lucky Lady's™ Roulette is an exciting new version of the Roulette game, where the Lucky Lady adds a little touch of extra Charm. Players place their bets as normal on the layout with the same odds as a traditional Roulette game on all outside bets and splits, the exception being that straight number bets pay-out at 30 for 1. In each game, after betting is closed and while the Roulette ball is still spinning, the Lucky Lady picks 1-4 random LUCKY LADY BONUS NUMBERS (from 0-36), with bonus multipliers totalling 210x stake for straight numbers, displayed on magic spheres.

Operators can choose the parameters for the number of LUCKY LADY BONUS NUMBERS to be drawn: from 1 – 4 extra numbers and any random variation between. The total bonus multipliers of 210x bet will always be randomly distributed among the number of spheres.

At "No More Bets" the random LUCKY LADY BONUS NUMBERS are revealed to all players at the top of the Roulette layout, along with their respective bonus multipliers, and the bonus numbers are highlighted on the betting field. Only straight number bets on these highlighted numbers can win the respective LUCKY LADY BONUS MULTIPLIER.

If the game result matches a LUCKY LADY BONUS number and the player has bet on that number, they get their 30 for 1 straight bet plus the stake placed on that number multiplied by the LUCKY LADY BONUS MULTIPLIER drawn for that number, so a lucky player could win up to 240 times their stake!

Lucky Lady's Roulette™ is available for all Roulette variants of the NOVOMATIC ETG offer based on NOVO LINE NOVO UNITY™ II: Novo Multi-Roulette™, Novo TouchBet® Roulette and Novo Flying Roulette™ in 0/00 versions.

LOTUS ROULETTE™ Jackpot

In addition to betting with the regular chips, players can also bet on any number with a special JACKPOT chip to play for the MINOR BONUS, the MAJOR JACKPOT and the GRAND JACKPOT. The side bet is won if the chip has been placed on the traditional winning number and matches with the lucky numbers of the respective wheel sections for the jackpots. The higher the jackpot level, the more matches are required, while the wheel sections of lucky numbers get consistently narrower.

The MINOR BONUS is a fixed amount awarded to every winner, whereas the MAJOR and GRAND JACKPOT are progressive and can be won by more than one player. They consist of a fixed amount and a progressive amount which is split equally among all the winners. Only the highest Jackpot per elected number is awarded.

MINOR BONUS

You will win the MINOR BONUS if the following matches:

- The number on which the Jackpot chip is placed.

NOVOMATIC Biometric Systems™

Biometrics are the measurable anatomical characteristics that make possible the unique identification of an individual. The in-house developed NOVOMATIC BIOMETRIC SYSTEMS™ (NBS) herald a modern approach to contemporary demands in the gaming industry. With a wide variety of application possibilities NBS offer a cost-effective solution for the quick and reliable processing of authentication data.

NBS consist of biometric acquisition devices, a local server and a central server in order to link multiple sites. Virtually any biometric trait could be utilized. The currently applied methods for identification and verification are fingerprints and face recognition, including the option of age estimation." The exchange of information is carried out via web services encoded in a proprietary protocol. The template of the biometric trait is created locally ('enrolment') and is immediately active via upload to the central server. The central database has a capacity of up to one million templates (upgradeable). The use of NBS enables the operator to reliably eliminate the access of minors and blacklisted persons to the gaming premises, and allows in-depth player tracking in order to ban vulnerable clients and to efficiently detect money laundering activities, as compulsory in some legislations.

NBS

Reception Desk

- Registration of customers
- Acquisition of personal data directly from the scanned document (OCR+ MRZ)
- Automatic document validation
- Cross-check of existing profiles to avoid duplicates
- Optional: biometric enrolment (fingerprint or/and face pattern acquisition)
- PEP/Blacklist query, Check-In
- Printer for personalized membership cards

Biometric Terminal

The terminal serves for access and check-in. The device is available in different variations, equipped with NFC reader, fingerprint scanner, face recognition, age verification, or a combination of the aforementioned.

Face Recognition for Live Tables

The system works with two cameras unobtrusively placed in poles, which are strategically positioned at an ideal angle in order to be able to capture all players' faces in front of/ around the table. The system compares the facial images of guests around a table with the database of registered clients. The facial pictures of the guests are shown on the tablet-PC of the pit boss. The system is fast and accurate, automatizes tasks and improves the process efficiency.

NOVO Cash

NOVO Cash machines are designed by LÖWEN Entertainment, the German subsidiary of NOVOMATIC, bringing new and proven cash management concepts to international gaming venues. Extensive expertise in gaming and payments combine to create all-in-one solutions for operators to manage and automate cash transactions on the gaming floor.

Whilst maintaining their high standards of money changing, cash and cashless capabilities, the new NOVO Cash machine range incorporates the latest payment solutions. This includes TITO, Cashless, as well as a

bank card option, which allows players to purchase a TITO ticket using a bank card via contactless or chip and pin, and redeem winning tickets onto their bank account – creating a totally cashless experience.

The NOVO Cash X software, available on all machines, gives detailed statistics and reports, both at the machine and remotely, as well as a raft of configurable options to operate the machines in a customised way. In addition, NOVO Cash is compliant with the majority of casino management systems and integrated with all industry-standard protocols.

NOVO CASH

NOVO Cash X4

Compact redemption machine

Compact and modern, the X4 boasts a new and improved security mechanism whilst offering a smaller footprint on the gaming floor. Whether as a TITO or Cashless solution, the X4 is characterized by a high level of features, with options of different banknote validators, coin hoppers and a dispenser with up to 5 cassettes. The front door features an illuminated design edge giving an elegant and modern appearance.

SlimChange

Compact solution for gaming venues

A self-service kiosk in a compact design for limited floor space, the SlimChange features all the latest payment capabilities. Intuitive and easy to use, the SlimChange has become a redemption terminal of choice in many international gaming and betting venues.

NOVO Cash X6

Advanced redemption machine

Featuring a state-of-the-art design and advanced features, the X6 is a robust money changer and redemption machine for casinos, arcades and betting venues. Superior technology and a modular design are two trademarks of the X6, which combine innovative money management concepts into a high-security cabinet. The X6 can be modified for bespoke customer requirements and with a massive capacity of notes and coins available, components can be upgraded at a later stage, as well as the integration of different technologies such as TITO, Cashless and bank card solutions.

NOVO Cash X6+

Enhanced version of the X6

Compared to the conventional X6, the NOVO Cash X6+ offers an enhanced front door with a new 8-point locking mechanism. In addition to further optimizations in various aspects, a blue illuminated edge runs around the front door giving an eye-catching design. Built for the future, current payment technologies are incorporated as standard including bank card solutions. Like its predecessor, the X6+ can be built to customer specifications and its large capacity allows components to be upgraded at a later stage as requirements change.

NOVO CASH

NOVO Cash X8

Innovative money changer

The flagship cash machine from NOVO Cash, the X8 features a 24-inch touchscreen monitor and striking design with an all-round blue LED edge. The heart of the NOVO Cash X8 is its powerful banknote recycler: the MRX. This high-tech component enables extremely fast checking and processing of banknotes, with deposit and withdrawal of up to 30 notes at once, as well as up to 480 notes in the banknote recycling system across all note denominations. In addition to bringing ultimate speed to players, the X8 has been designed with the operator in mind, ideal for cashier cycles and the flow of money in a venue.

Offering fast and, above all, secure payments with two banknotes per second, the X8 also promises high performance in coin recycling with three hoppers and its own coin box. At the same time, the innovative locking mechanism offers an extremely high-security concept.

Casino Master

Ultimate payment machine

Designed for integrated resorts, casinos and large amusement arcades, the Casino Master combines some of the fastest, highest capacity and most secure components available. With features such as TITO, Cashless and Biometrics, the robust security cabinet features a large touchscreen display, fast-action banknote dispensing and a massive electronic steel vault.

Greentube

Greentube, the NOVOMATIC Interactive division, is one of the industry's best and most respected suppliers of iGaming content and has wowed players for over 20 years with its portfolio of over 580 entertaining, safe and secure casino games and services. Greentube ensures both local players and global business partners have the content they need and love.

Among the titles Greentube will showcase in 2022 is its popular Diamond Link™ series of slots including Mighty Elephant, Oasis Riches, Mighty Sevens, Mighty Emperor, Mighty Santa and the upcoming Mighty Buffalo. Each of these slots has its own set of unique and exciting stand-alone features that players can enjoy. The aspect that makes them even more attractive to play is that they all contribute to a linked jackpot that players can win.

Mighty Emperor has particularly stood out within the Diamond Link™

series for its excellent recent performance. This title was the first evolution of the Diamond Link™ Series with a stunning upgrade on the popular Hold N Spin mechanic. Players are presented with three extra features which can be triggered within the Diamond Link™ feature, these appear on gold diamond symbols and allow players access to one of the following features: Wild Spin, Sticky Spin or Colossal Spin. The winnings from these spins are added to the total Diamond Link™ feature win. In addition, the success of Mighty Elephant, the first Diamond Link™ title, has been such that it will be converted to a land-based title by NOVOMATIC, demonstrating a truly mobile-first focused approach.

The Diamond Link™ series will also be supplemented with a host of exciting new additions that will be released later this year, including Mighty Buffalo. This next title in the ever-evolving series has increased the potential for higher wins for the player in the Wild Spin, Sticky Spin and Colossal Spin features, which have been expanded to include x2 and x3 multipliers, to give the game that classic Buffalo feeling. The multipliers come in the form of wild symbols with a x2 or x3 attached to them and have the ability to not only increase the winnings of the win line they occupy, but also multiply themselves if they are on the same win line.

The progression of Diamond Link™ is proof of Greentube's commitment to further establishing player loyalty and to make it more difficult for copies of its content to be competitive, while the evolved Hold N Spin mechanic is the result of the supplier's constant focus on advancing its technology, experiences and features to offer its partners products that not only meet demand but create it.

In the first quarter of 2022 Greentube will launch the online version of Cash Connection™ – Dolphin's Pearl™, which is based on an iconic NOVOMATIC classic underwater treasure, featuring the Lock and Spin feature and four jackpots. The aim is to land 15 pearls in the Lock and

greentube

HOME OF GAMES

Spin feature to and win the Cash Connection linked jackpot. In addition, five Dolphin symbols on a win line, which will award an immediate payout of 900x your bet.

The second quarter of 2022 will see Greentube launch Book of Ra™ deluxe 10: Win Ways™, an enthralling new slot that combines Greentube's ever-popular theme with the innovative Win Ways™ mechanic. Paying homage to the original Book of Ra™ mechanic, symbols can expand in the free games feature, which in Book of Ra™ deluxe 10 Win Ways are then transferred onto the second reel set. In addition, this latest iteration of the industry hit, sees symbols on both sets of reels change size on every single spin, potentially unlocking 251,957 win lines in total. But that's not all, whenever matching symbols appear they explode, allowing for new ones to tumble into place leading to huge wins for intrepid players.

As an internationally active company, Greentube's portfolio is being expanded, on an ongoing basis, and is strengthened via developments from its many subsidiaries. The Greentube Group of companies includes Funstage, Greentube Malta, Greentube UK, Greentube Slovakia, Greentube Netherlands, Greentube US, Greentube Serbia, BlueBat Games, AbZorba Games, Platogo, Greentube Alderney, and Greentube Gibraltar. Greentube holds licenses in Malta, Alderney

and Gibraltar, as well as the United Kingdom, Spain, Italy, Romania, Belgium, the Netherlands, Germany and New Jersey (USA). In addition, it is working on market entry into a variety of European and North American markets that will be regulated in the future.
