The NOVOMATIC AG Group

In 1980, a young entrepreneur with a visionary pioneering spirit and the courage to innovate laid the foundation for today's global company: Professor Johann F. Graf. Today, the NOVOMATIC AG Group is one of the biggest producers and operators of Gaming Technologies, with approximately 25,000 employees worldwide, locations in about 50 countries and exporting high-tech electronic gaming equipment to more than 100 countries. The Group operates gaming machines in its 2,200 plus traditional and electronic casinos as well as via rental concepts.

Part of the Group is also ADMIRAL Sportwetten GmbH, Austria's leading sports betting operator with more than 200 outlets, as well as the Vienna-based online gaming specialist Greentube GmbH. The main markets of the Group are the Member States of the European Union; the Central, Eastern and South Eastern European markets where NOVOMATIC was, due to its early market entry, able to establish an excellent position; as well as expanding markets with exceptional growth such as Latin America and the US.

Gaming innovation starts here

Research and development are important cornerstones of the NOVOMATIC business model. 32 technology centers in 18 countries represent world leadership in the development of innovative technologies, system solutions, and promising products for the land-based, online, mobile, and social gaming segments.

Products, services and solutions for all business segments

- Casino and VLT / SBG products
- AWP / LPM for arcades, bars, bingo parlours
- Sports betting products and systems
- Casino Management Systems
- Content Delivery Systems (AV)
- Accessories
- Online / mobile / social gaming solutions

NOVOMATIC is also the market leader in Europe in terms of electronic casino operations, operating about 2,200 gaming facilities worldwide. These operations are part of the unique and integrated market strategy as both a manufacturer and an operator. NOVOMATIC uses its own operations in the various markets as a field test environment for new products and solutions prior to market launch.

Operations of all kinds

- Casinos and electronic casinos
- Arcades, bingos, bars / pubs, sports betting outlets
- Online / mobile / social casinos
- VLTs

State-of-the-art production facilities

NOVOMATIC has an excellent reputation for innovative high-tech gaming equipment and content that is characterized by premium quality and reliability. Operators value the fast ROI, low maintenance costs and first-class after-sales service and support. The Group comprises modern production facilities at the Austrian headquarters, the Netherlands, Germany, Italy, Poland, Spain and Hungary, as well as in the USA, Australia, amongst others. Top quality management and ISO certification policy are mandatory.

As a manufacturer with a global footprint, NOVOMATIC attaches great importance on its corporate sustainability policy. Through an optimized production ecology and resource efficiency, as well as sophisticated environmental management policy, the Group aims to keep the ecological footprint to a minimum. We are therefore successively implementing photovoltaic systems at our headquarters and in central core markets.

GOING FOR GOLD™

GOING FOR GOLD™

The Roulette jackpot side bet

These jackpot side bet winning chances add some extra thrill to the classic Roulette game! GOING FOR GOLD™ is a multi-level jackpot side bet, set up as a Local- or Wide-Area Progressive offer for all connected Roulette games. Additionally to their classic Roulette bets, players can also choose to buy and place a certain quantity of side bet tokens on the Roulette numbers of their choice, thus participating in the jackpot game. The winning number for the side bet is the same as for the traditional game.

Players can qualify in the initial Jackpot Journey game by buying the tokens and placing them on the layout.

With each GOING FOR GOLD™-side bet on a winning number they qualify for the next jackpot level: Winning e.g. an IRON jackpot entitles the player to bet on the next jackpot level, BRONZE; winning that allows them to enter the SILVER jackpot game; and a SILVER jackpot grants access to the GOLD jackpot level.

The number of jackpot levels, denomination of the jackpot tokens and individual win values for the jackpot levels can be adjusted according to operator preferences in the menu settings. GOING FOR GOLD™ is available for all Roulette variants of the NOVOMATIC ETG offer based on NOVO UNITY™ PRO.

Lucky Lady's Roulette

Lucky Lady's Roulette

Roulette with an extra touch of Lady Luck

Lucky Lady's Roulette is an exciting new version of the Roulette game, where the Lucky Lady adds a little touch of extra Charm. Players place their bets as normal on the layout with the same odds as a traditional Roulette game on all outside bets and splits, the exception being that straight number bets pay-out at 30 for 1. In each game, after betting is closed and while the Roulette ball is still spinning, the Lucky Lady picks 1-4 random LUCKY LADY BONUS NUMBERS (from 0-36), with bonus multipliers totalling 210x stake for straight numbers, displayed on magic spheres.

Operators can choose the parameters for the number of LUCKY LADY BONUS NUMBERS to be drawn: from 1-4 extra numbers and any random variation between. The total bonus multipliers of 210x bet will always be randomly distributed among the number of spheres.

At "No More Bets" the random LUCKY LADY BONUS NUMBERS are revealed to all players at the top of the Roulette layout, along with their respective bonus multipliers, and the bonus numbers are highlighted on the betting field. Only straight number bets on these highlighted numbers can win the respective LUCKY LADY BONUS MULTIPLIER.

If the game result matches a LUCKY LADY BONUS number and the player has bet on that number, they get their 30 for 1 straight bet plus the stake placed on that number multiplied by the LUCKY LADY BONUS MULTIPLIER drawn for that number, so a lucky player could win up to 240 times their stake!

Lucky Lady's Roulette is available for all Roulette variants of the NOVOMATIC ETG offer based on NOVO UNITY™ PRO: Novo Multi-Roulette™, Novo TouchBet® Roulette and Novo Flying Roulette™ in 0/00 versions.

Lucky Lady's Roulette

Lucky Lady's Roulette

With Impera's latest version of Impera Line™, multiplayer systems with up to 255 terminals can be set up and offer two different multiplayer roulettes, in addition to the comprehensive portfolio of more than 70 games from its successful Impera Line™ Edition 9. The Multi-Roulette Version 1 includes Lotus Roulette™ and Lucky Lady's Roulette.

Lucky Lady's Roulette is an exciting new version of the Roulette game, where the Lucky Lady adds a little touch of extra Charm. 1-4 additional randomly selected Lucky Lady's bonus numbers pay out with increased odds of up to 210 times the bet for straight numbers only.

RIVER QUEEN™ ROULETTE

River Queen Roulette

The Multi-Roulette Version 2 of the Impera Line™ HD Edition 9 includes Lotus Roulette™ and River Queen™ Roulette, where the majestic Mississippi sets the stage for this captivating Roulette experience.

River Queen™ Roulette offers a fresh and thrilling twist on the classic Roulette game, with the enchanting River Queen™ bringing an extra dash of charm to every spin. 1-4 additional randomly selected River Queen™ bonus numbers pay out with increased odds of up to 210 times the bet for straight numbers only.

LOTUS ROULETTE™ Jackpot

Roulette Jackpot

In addition to betting with the regular chips, players can also bet on any number with a special JACKPOT chip to play for the MINOR BONUS, the MAJOR JACKPOT and the GRAND JACKPOT. The side bet is won if the chip has been placed on the traditional winning number and matches with the lucky numbers of the respective wheel sections for the jackpots. The higher the jackpot level, the more matches are required, while the wheel sections of lucky numbers get consistently narrower.

The MINOR BONUS is a fixed amount awarded to every winner, whereas the MAJOR and GRAND JACKPOT are progressive and can be won by more than one player. They consist of a fixed amount and a progressive amount which is split equally among all the winners. Only the highest Jackpot per elected number is awarded.

MINOR BONUS

You will win the MINOR BONUS if the following matches:

- The number on which the Jackpot chip is placed.
- One of the 7 LUCKY NUMBERS in the Minor Bonus wheel section.
- The number elected on the Roulette cylinder.

MAJOR JACKPOT

You will win the MAJOR JACKPOT if the following matches:

- The number on which the Jackpot chip is placed.
- One of the 7 LUCKY NUMBERS in the Minor Bonus wheel section.
- One of the 5 LUCKY NUMBERS in the Major Jackpot wheel section.
- The number elected on the Roulette cylinder.

GRAND JACKPOT

You will win the GRAND JACKPOT if the following matches:

- The number on which the Jackpot chip is placed.
- One of the 7 LUCKY NUMBERS in the Minor Bonus wheel section.
- One of the 5 LUCKY NUMBERS in the Major Jackpot wheel section.
- One of the 3 LUCKY NUMBERS in the Grand Jackpot wheel section.
- The number elected on the Roulette cylinder.

NOVOVISION™

The visionary solution

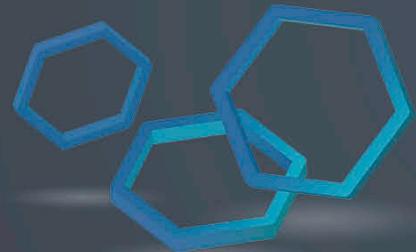

NOVOVISION™ Casino Management Solution

Built on the latest cutting-edge technologies, NOVOVISION™ is a revolutionary casino management system with extensive features that cover all areas of a modern casino operation. Its system architecture is designed to handle high-volume transactions while ensuring maximum security, data integrity and regulatory compliance.

The modular design of the system allows for absolute flexibility and easy customization based on the operators' needs and legal obligations: Operators can opt for individual modules and gradually expand their system according to operational or legal requirements across the various fields of gaming: slots, live tables, online gaming and sports betting.

The high system scalability qualifies NOVOVISION™ to perfectly suit any size of operation – from small single-site venues to large casino operations – and any cash system requirement (TITO, Cashless or biometrically supported). The many extended functionalities for sophisticated player tracking, loyalty and promotions also have a significant impact on revenue growth. The NOVOVISION™ Casino Management System provides a powerful tool set that allows operators to streamline their processes, increase operational security and maximize the gaming experience for their guests. In 2023, NOVOVISION™ was awarded the “Best CMS” at the European Casino Awards. Worldwide, some 30,000 gaming machines, 3,000 betting terminals and 1,300 cash machines are operated via NOVOVISION™, and more and more operators are opting for this comprehensive software solution.

NOVOVISION™ core

Your secure high-efficiency casino management

The key benefit of proficient casino management is improved operational efficiency and security. The automation of time consuming casino management tasks through the basic NOVOVISION™ system functionalities enables the operator to focus on providing the best possible and welcoming customer journey with smooth entry procedures, premium customer service and a personalized gaming experience. NOVOVISION™ monitors gaming activity and transactions in real-time, granting the operator not only full administrative and operational control of his business but also enabling them to immediately identify and respond to any potential security threat.

The NOVOVISION™ system architecture is designed to ensure full compliance with all regulatory requirements, including GDPR, AML, and KYC, through features such as data protection, consent management, transaction monitoring, customer identification, due diligence, and record keeping.

Slots management

NOVOVISION™ provides powerful capabilities for the user-friendly real-time management of multiple electronic gaming machines (EGMs). The system allows operators to configure and manage EGMs according to the capacities of the SAS protocol. It enables the seamless integration of machines into the gaming floor, real-time monitoring and alerts through SAS RTE polls and allows operators to make data-driven decisions and slot floor adjustments to maximize revenue.

Reporting

NOVOVISION™ offers customizable reporting that generates various reports on gaming, player activity, marketing, and financial performance. These reports provide valuable insights into casino operations and can help casinos make informed decisions to improve their offerings and increase revenue.

Player management

NOVOVISION™ provides robust player tracking and customer activity reporting capabilities based on in-depth player profiles detailing individual preferences, bonus status and promotions. This feature can help operators analyse player activity and make data-based decisions to optimize their slot floor as well as create personalized complementary offerings and promotional activities to increase player loyalty and retention.

Accounting

NOVOVISION™ handles multiple payment methods and currencies, automates accounting, auditing and reporting, and provides detailed financial analytics. This allows the operator to optimize revenue and expenses, increase profitability, reducing the risk of financial loss and ensuring compliance with financial regulations.

NOVOVISION™

The visionary solution

NOVOVISION™ **access**

Your biometrically supported customer access & registration management

Regulatory and operator requirements demand that every gaming venue has an access control system in place to fulfil the requirements for responsible gaming, the protection of minors and relevant security aspects as well as the operator's wishes with regard to CRM, player tracking and loyalty. NOVOVISION™ access provides a highly customizable and sophisticated access solution that caters to the most discerning demands of a modern gaming operation with the effect of granting fast and easy access for the guest.

The NOVOVISION™ access set-up can be customized with an NFC card reader, fingerprint scanner and face recognition. In particular, the option of using biometrics for customer identification and/or verification ensures a smooth entry process for the guest and maximum operational security for the operator.

Customer enrolment & registration

The basic NOVOVISION™ registration desk consists of a workstation, an NFC card reader and an OCR document scanner (e.g., Desko, ScanID, Fujitsu). The initial enrolment process includes the creation of a new data record, the verification and check of the customer ID against a series of lists and registers (AML, PEP list, government and casino blacklists, etc), customer submission to the terms and conditions and the issuing of a non-transferable NFC player loyalty card.

Subsequent to the initial registration, the customer can enter the venue by scanning their player card or token at a NOVOVISION™ Interactive Reader Module plus having their ID checked for verification.

Adding biometrics to the game

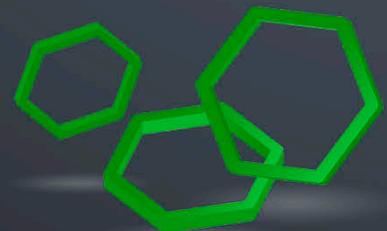

For the biometrically supported registration via face recognition, the customer's facial picture is linked to an NFC-card or token. The card or token is subsequently used for identification and facial recognition for verification. At each return visit, the register queries are automatically executed at a NOVOVISION™ Face Recognition Terminal before access is granted.

For customers who have agreed to biometrically supported initial registration including a fingerprint template, a simple scan of the fingerprint (without an ID) will be sufficient for fully automated access queries on subsequent visits.

access

All NOVOVISION™ access terminals use an open interface for smooth communication with other units and devices of the access system, e.g. CRM modules, sliding doors, turnstiles etc.

NOVOVISION™

The visionary solution

NOVOVISION™ *wallet*

Your 360° solution

The NOVOVISION™ *wallet* substitutes costly TITO tickets and printers by enabling the virtual transfer of credits among gaming machines and betting terminals, payouts at cash desks and cash machines, payments at vending machines, catering, casino hotels and even online.

The NOVOVISION™ *wallet* is able to interconnect land-based operations with online platforms, hence representing a true 360-degree solution. Multi-site operations linked via a central server allow the transfer of credits among all locations connected. The medium for identification can be a smart card, a biometric feature like fingerprint, a mobile phone with the use of dynamic QR code technology, or a password for online activities.

The NOVOVISION™ wallet grants players real-time mobile access to their cash and promotional credits in a single, fully virtual wallet: maximum convenience for the guest and real-time cash control for the operator.

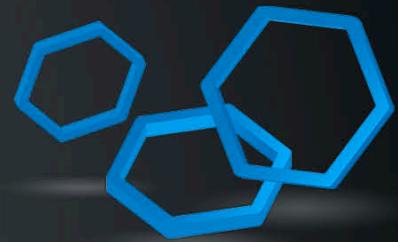

NOVOVISION™ *smart*

Your all-in-one digital wallet & player engagement platform

NOVOVISION™ *smart* is a multi-platform app that allows casino guests to connect with the casino like never before. The main goal of the application is to engage players through unique promotions and other app-exclusive functionalities. Through its semi-modular architecture, NOVOVISION™ *smart* provides a uniquely tailor-made approach to casino app development. Smoothly integrated in the NOVOVISION™ suite, it provides a seamless casino experience – on-site and abroad.

Stay in contact with your players

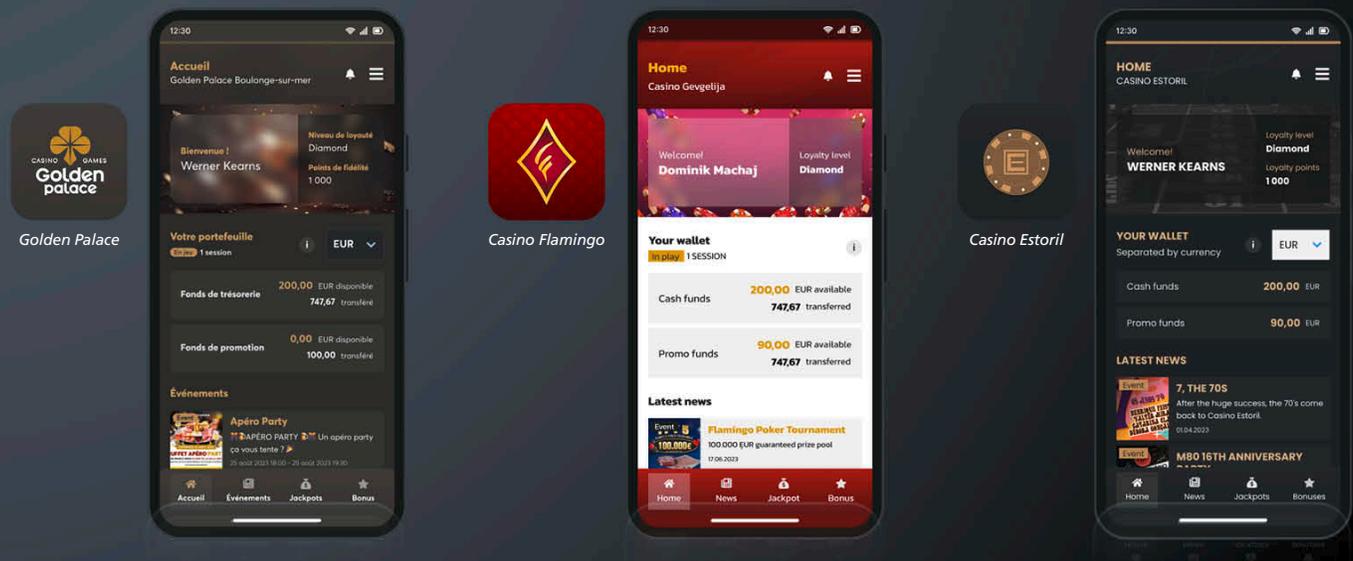

Once guests leave the casino, they used to be out of reach, and messaging them via email or SMS oftentimes was not very effective. NOVOVISION™ *smart* provides the solution in the form of a native mobile app that enables guests to receive push-communication and to consume content, for example news stories or info about jackpot hits, at their own pace. NOVOVISION™ *smart* aggregates data from the casino management system, and presents your guests the information they look for – fast and easy. For example: the player's recent wallet transactions, current jackpot levels, casino news, events, promotions, ...

Your customized player engagement platform

Every casino has its app design built from scratch to make players feel right at home. The system offers out-of-the-box support for multiple languages, multiple time zones, and even multiple casino sites: all in one convenient app, available for almost every device — mobile and desktop — via Apple App Store, Google Play Store, and a responsive web-app.

Special features are added or modified according to customer request, to provide the best tools to keep your players happy and safe. These could include: Responsible Gaming measures, marketing consents, loyalty points and much more.

SYSTEMS & SOLUTIONS

NOVOVISION™

The visionary solution

NOVOVISION™ *promo*

Your customer retention & promotion system

NOVOVISION™ *promo* is a unique customer retention & promotion solution that comprises a wide-ranging set of features and settings for sophisticated loyalty strategies. At the centre of it is a complimentary game embedded in a user-friendly stand-alone terminal directly at the POS, that acts as a returning point for the customer and helps increase the number of return visits of registered players within specified time periods.

The type of promotion will be individually customized according to the specific operator strategies; they might be cashable prizes, promo-tional credits or loyalty points which can be exchanged in the casino's Loyalty Store for a variety of amenities specified by the operator.

Players can earn loyalty rewards for their initial registration, return visits, play on video slots or at the live tables, and at the same time leave a track of valuable information in the system. Additional bonuses such as the Birthday Bonus, Collector Bonus, Match Bonus and many more create extra highlights and surprises for the returning player.

Build an appreciative customer journey

Every relationship is based on the harmony of give and take. With a unique customer journey in your venue, you can add extra benefits to the gaming entertainment experience and build a lasting relationship with your players, giving them more for their loyalty:

promo

- **Create** your own loyalty strategies and promotions.
- **Build** up a dynamic loyalty tiers structure based on your player demographics & preferences.
- **Set up** a sophisticated currency table for loyalty achievements.
- **Design** desirable cashable and promotional rewards.
- **Surprise** your loyal customers on a regular basis.
- **Treat** your VIPs like they have never been treated before.

NOVOVISION™ *tables*

Your live table games support

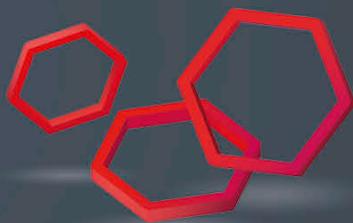

The casino industry is constantly looking for modern improvements to the complex field of Live Gaming. NOVOVISION™ offers a variety of tools that assist in performing all the tasks necessary for operating live table games.

Live Table Accounting

It is quite a challenge for casino operators to keep a clear picture of things going on in the pits concerning turnover of live tables. NOVOVISION™ helps keeping track, gives an overview of turn-overs, and is highly supportive in tasks such as daily settlement. The accounting system is extensively adaptable to individual and legal circumstances. Customized reports can be generated.

The NOVODROP

As a sophisticated extension of Live Table Accounting, the NOVODROP acceptor is available for integration into the live table. Cash payments fed into the device as single banknotes or in bundles are automatically counted, registered in real-time and securely stored.

Live Table Loyalty

Player loyalty at the live tables is usually the responsibility of the pit boss: Overseeing a number of tables, he awards bonuses to qualified customers, typically high-rollers.

NOVOVISION™ *tables* facilitates this process through an automated electronic system on a tablet PC that helps to calculate bets and individual player turnover, thus enabling appropriate bonuses to be awarded to qualified players. The system is highly customisable according to a variety of parameters.

Live Player Tracking

Face recognition for live tables

As an innovative extension for the Live Table Loyalty functionality, NOVOVISION™ *tables* also offers a face recognition system for live tables. Usually, the system works with two cameras hidden in unobtrusive poles, that are strategically positioned at an ideal angle to capture all players' faces in front of/around the table in real-time. The system checks their facial images against the database of registered customers, automatically identifies a match and displays the player profile in the Live Table Loyalty App for the pit boss.

NOVOVISION™

The visionary solution

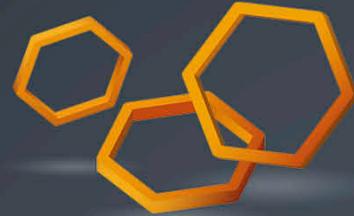

NOVOVISION™ tournament

Tournament management has never been so easy

The NOVOVISION™ tournament module enables you to plan, organize and manage your own live table tournaments and even leagues, with full administrative control of the events at the tables.

The functionalities include detailed settings for the game types, chips, rounds, buy-ins and prizes as well as table and player management, thus significantly reducing the administrative effort and making the organisation of Poker tournaments basically child's play. The application also enables you to manage the tournament display content as well as messaging and sound notifications for an unlimited number of screens.

NOVOVISION™ tournament supports a variety of card games, e.g., Poker variants, Black Jack, Baccarat/Punto Banco.

The application is fully integrated with the NOVOVISION™ cashdesk for the tournament registration as well as the players' buy-ins & prize wins directly via their NOVOVISION™ wallet.

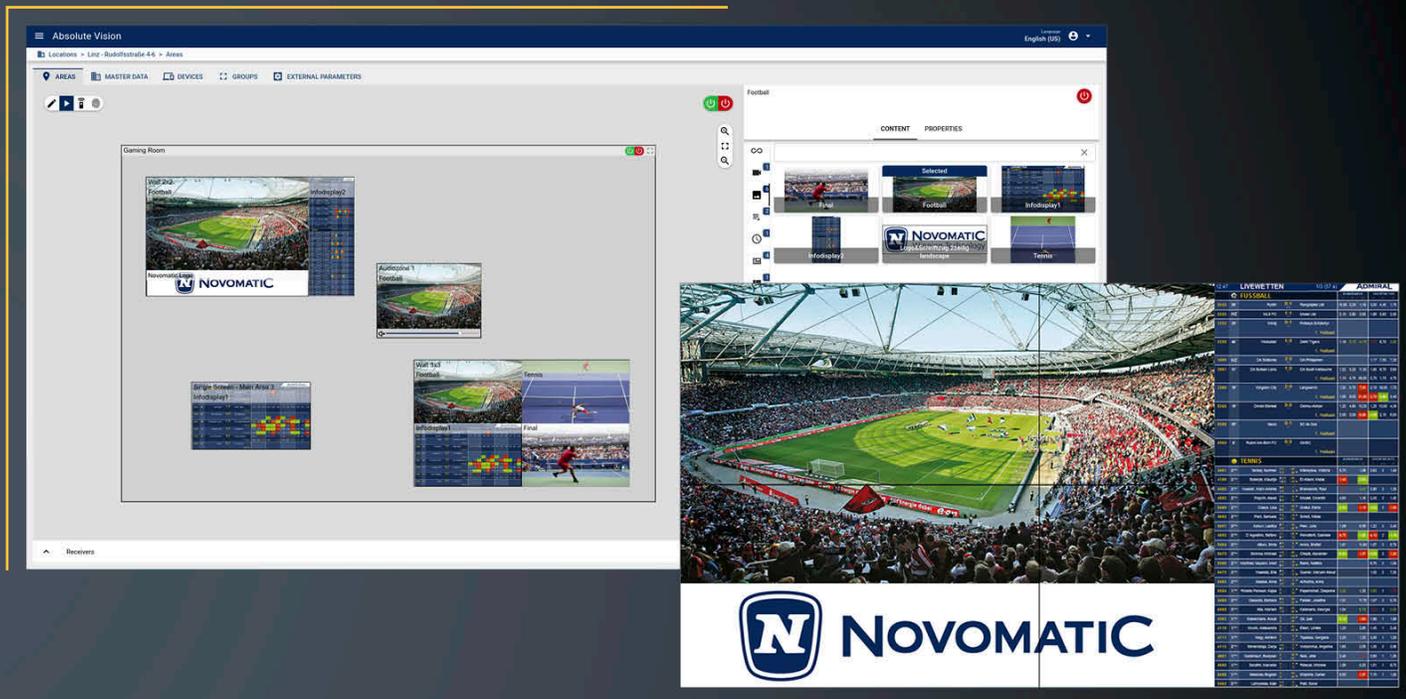

- MAIN MENU:**
- **Template management:** Define, duplicate & configure templates for future tournaments.
 - **Maintenance mode:** Active management of ongoing tournaments in real time.
 - **Archive:** Full history of all events performed during the tournaments.

NOVOVISION™ *av* (AbsoluteVision)

Media content management at your fingertips!

With NOVOMATIC *AbsoluteVision™* you can configure and manage digital signage content for your own specific display layout via one real-time control center – at any time in any place.

AbsoluteVision is a sophisticated digital signage system comprised in a flexible one-stop-shop hardware and software solution.
